

INTERNAL ANGLE

EXTERNAL ANGLE

NOTES

- Drawing issued as an advice and guidance document
- The suitability of all Gabion Retaining Walls should be checked by the overseeing authority on a project
- Please contact the Engineering Department at Geosynthetics Ltd for designs of Rockbox Gabion Gravity Walls, and Rockbox Gabion Face Reinforced Soil Walls
- Rockbox fill and wedge fill: Selected granular material Class 6G

Angles achievable are limited by mesh size:
The mesh size is 75 mm therefore it is only possible to achieve angles related to mesh pitch
