## Golpla®

### Feldon Valley Golf Club

#### Location:

Feldon Valley Golf Club  
Sutton Lane  
Lower Brailes  
OX15 5BB

#### Client:

Feldon Valley Golf Club

#### Contractor:

Stepnell Ltd

#### Consultant:

Indigo Landscape Architects  
Design Engine Architects  
Ltd

Feldon Valley Golf Club has undergone quite a transformation. The project involved expanding the existing club house, a new thirteen-bedroom hotel and four woodland lodges. As the club is situated in the Cotswold Area of Outstanding Natural Beauty it was vital that the work be sensitively done and compliment the surroundings. Indigo Landscape Architects Ltd. designed the new car park to do just that including gravel reinforced parking areas that would look attractive and drain easily.

Golpla had been chosen for the project and in June 2017 a seminar was held at the club to explain about the product and installation techniques. This was with main contractors Stepnell and their subcontractor Marcus Stobart Construction. As the car park had to remain operational during the work deliveries were scheduled to allow individual rows of parking bays to be completed and then handed over to the club. Visits were made to check on the progress and help answer any technical questions.

Golpla was useful on this project as the colour choices worked well with the architectural vision. Beige units were filled with gravel for the parking bays and some of the access roads. Green units were used for the overflow parking grass areas. This was planted with seed which did take a few months to fully establish. Now complete the car park enhances the visual approach to the golf course.
